

LI Xiaoli

Areas of Research

cultural landscape, cultural heritage, historic urban landscape, organically evolving landscape and natural aesthetics.

Contact Information

Office location: Room 207 experimental building 3(Mailing Address: Room 207 experimental building 3, Nanjing agricultural university, No.1weigang, Nanjing, China)

Email address: 2018042@njau.edu.cn

Research Interests

1) Cultural heritage meanings under complex social and cultural forces.

Understand profound cultural heritage meanings under complex forces of social competitions, privileges or spatial struggles, political manipulations, and cultural flux; how these complex forces affect landscape designing and preserving.

2) Continuing heritage organically evolved with constant human society.

Explore dynamic heritage landscape evolutions considering “entire setting” that historic fabrics relied on, through examining continuous products of landscape changes in long history.

3) Intangible heritage and crucial role in perpetuating heritage identities and authenticities.

Elucidate essential functions of intangible values upon which material evidences integrally interconnected with continuous human societies to perpetuate heritage identities and authenticities.

Education Background

Bachelor: Tongji University

Master: Tongji University

Doctor: Tongji University

Work experience

Lecturer, Department of landscape architecture, Nanjing agricultural university, 2018.08
